

Toro[®] LH514

Safer. Stronger. Smarter.

Technical specification Toro® LH514

Toro[®] LH514 is a high capacity underground loader for hard rock applications.

Toro[®] LH514 combines smart geometry with powerful thrust, high breakout forces, responsive controls and high tramming speeds. The advanced but still robust loader provides fast bucket filling, high fill factors, fast cycle times and proven reliability for underground mining use.

Toro® LH514 is equipped with Sandvik Intelligent Control System, the backbone of the loader. The control system

monitors the equipment productivity and health, and enables multiple smart solutions, such as the optionally available Integrated Weighing System and full AutoMine[®] loading capability.

SHARK[™] Ground Engaging Tools (G.E.T.) are available on a wide range of bucket sizes, optimized for loader productivity and extended bucket service life.

Capacities		
Maximum tramming capacity	14 000 kg	
Break out force, lift	28 042 kg	
Break out force, tilt	23 453 kg	
Standard bucket	5.4 m ³	

32.7 km/h

Speeds forward & reverse With Volvo TAD1340VE en	
1st gear	5.9 km/h
2nd gear	10.5 km/h
3rd gear	18.3 km/h

4th gear

Bucket motion times	
Raising time	7.0 sec
Lowering time	4.0 sec
Dumping time	2.3 sec
Operating weights	
Total operating weight	38 100 kg
Front axle	16 700 kg
Rear axle	21 400 kg
Loaded weights	
Total loaded weight	52 100 kg
Front axle	38 625 kg
Rear axle	13 475 kg

Environmental temperature	From -20°C to +50°C				
Standard operating altitude	With engine Volvo TAD1340VE from -1500 m to +3000 m at 25 °C without rated power derate				
Requirements and compliance

No lock-up

Brakes

Service brakes are spring applied; hydraulically operated multidisc wet brakes on all wheels. Two independent circuits: one for the front and one for the rear axle. Service brakes also function as an emergency and parking brake. Brake system performance complies with requirements of EN ISO 3450, AS2958.1 and SABS 1589.

Neutral brake

Automatic brake activation system, ABA

Electrically driven emergency brake release pump

Brake oil tank capacity 75 l

Operator's compartment

Toro[®] LH514 is available with a robust ROPS and FOPS certified cabin or canopy, both protectecting the operator in case of roll over or falling objects. The optional sealed and pressured cabin is air-conditioned and uses dust and noise resistant upholstery materials, has 3-layer laminated safety glass windows, emergency exits, illuminated cabin entrance with threepoint contact handles and anti-slip steps.

CABIN (Cabin option replaces the standard canopy)

ROPS certification according to EN ISO 3471

FOPS certification according to EN ISO 3449

Sealed, air conditioned, over pressurized, noise suppressed closed cabin

Sound absorbent material to reduce noise

Laminated glass windows

Cabin mounted on rubber dampers to the frame to reduce vibrations

Air conditioning unit located outside the cabin to reduce noise inside the cabin

Cyclone pre-filter for A/C device

Adjustable joysticks

No high pressure hoses in the operator's compartment

Inclinometers to indicate operating angle

Emergency exit

Floor washable with water to reduce dust

Three-point contact access system with replaceable and colour coded handles and steps

With cabin option only

With cabin option only

With cabin option only

12 V output

Remote circuit breaker switch

Operator's seat

Low frequency suspension

Height adjustment

Adjustment according to the operator's weight

Padded and adjustable arm rests

Two-point seat belt

Fore-aft isolation

Adjustable lumbar support

Selectable damping

Canopy (Standard)

ROPS certification according to EN ISO 3471

FOPS certification according to EN ISO 3449

Adjustable joysticks

No high pressure hoses in the operator's compartment

Inclinometers to indicate operating angle

Emergency exit

Floor washable with water to reduce dust

Three-point contact access system with replaceable and colour coded handles and steps

12 V output

Remote circuit breaker switch

Control system, dashboard and displays

A 7" colour display with advanced touch screen functionality has all the needed information and alarms on one large display giving the operator more time to keep eyes on the road. Dark background graphics with clear symbols are designed for the underground mining environment to reduce eye fatigue. The Sandvik Intelligent Control system monitors and warns the operator before failures occur, preventing severe damage and potential loss of production.

Sandvik Intelligent Control System

Critical warnings and alarms displayed as text and with light

7" color display with touch screen function and adjustable contrast and brightness, illuminated switches

My Sandvik Digital Services Knowledge Box™ on-board hardware

Supports 3G, 4G, LTE and WLAN data transfer

Measured vibration level

Whole body vibration was determined while operating the loader in a simulated working cycle consisting of loading, unloading and driving with and without load. The value is determined applying standards EN 1032 and ISO 2631-1.

Maximum r.m.s.value a _w [m/s ²]	0,95
VDV, over 15 min period [m/s ^{1.75}]	8,26

Measured sound level

The sound pressure level and sound power level at the operator's compartment, in a closed cabin, have been determined in stationary conditions on high idle and at full load, with engine Volvo TAD1340VE Tier 2.

Sound pressure level L _{pA} [dB re 20 μPa]	74 dB
Sound power level L _{wa} [dB re 1 p W]	122 dB

REAR AND FRONT FRAME

High strength structure with optimized material thicknesses. Reduced own weight for higher overall hauling capacity and long structural lifetime. Welded steel construction.

Adjustable upper bearing in central hinge

Rear tanks bolted to frame, hydraulic tank and cabin base both bolted and welded to frame

Automatic central lubrication

Main components		Options				
Alternator	24 V, 150 A	Additional cabin heater element for air conditioning

Optional engine	
Diesel engine	Volvo TAD1171VE
Output	265 kW @ 2 100 rpm
Engine brake	Yes
Converter lock-up	Yes
Emissions	Tier 4 Final
Ventilation rate (Ultra low sulphur fuel, AdBlue)	CANMET 5.90 m³/s, MSHA 12 000 CFM
Particulate index (Ultra low sulphur fuel, AdBlue)	MSHA 1 500 CFM
Average fuel consumption at 40% load	29 l/h
Compatible with paraffinic diesel fuel (EN 15940)	Yes

Optional engine	
Diesel engine	Volvo TAD1350VE
Output	256 kW @ 1 900 rpm
Engine brake	No
Emissions (Ultra low sulphur fuel, AdBlue)	Euro Stage III
Average fuel consumption at 40% load	29 l/h
Compatible with paraffinic diesel fuel (EN 15940)	Yes
